

Remote Tutoring Platform CPEN 421 Project Presentation

Leyang Pan (93460962), Binjie Ye(29415965), Nayeon Kim(13039383)

Problem

Hard to find verified tutors on common platforms

LinkedIn not student-tutor friendly

Tutors rely on word-of-mouth

High cost for custom management systems

Need affordable, scalable tutoring platforms

Product Vision

Build a trusted social network for students, tutors, and institutions

Tailored streaming tools and scalable internal management

Use AI to match students with ideal tutors

Support students with AI-assisted learning during sessions

Road Map

Now:

- Profile management system
- Payment system
- Tutor-Student matching system
- Video call system

Next:

- File upload, download system
- Group session online class

Then:

- AI-tutor

MVP

Student, tutor, and institution profile system

Basic one-to-one matching with rule-based recommendations

Integrated secure transaction system

Real-time tutoring via live streaming

Landing page & early user test for demand validation

Go To Market Strategy - Target Audience & Market Fit

Students, tutors, and institutions struggle to find counterparts

Our platform connects all three with:

AI tutor matching

Automated
management tools

Live tutoring features

GTM Strategy

Competition & Demand

Strong, growing demand for reliable tutoring

Major competitors:
CourseHero, Chegg

We offer AI-driven personalization and integrated tools for tutors and institutions

More scalable and accessible than competitors

GTM Strategy - Distribution & Monetization

Distribution

- Website + Mobile App
- Available on Google Play, App Store
- Shared on educational platforms

Monetization

- 5–10% commission on tutoring sessions
- Student subscriptions for AI help + discounts
- B2B per-user fee for institutions

GTM Strategy - Marketing & Growth

Marketing Strategy

- Build credibility with blogs, expert guides, AI tips
- Target students and parents through different channels
- Launch referral program with discount rewards

Growth & Scale

- Expand tutor base with onboarding & retention
- Support multilingual, international expansion
- Offer tools/licensing to partner organizations

Thank you
